SUMMARY

Innovative B. Tech student of Marwadi University, specialization of full-stack development. Having well-aware of MERN stack, python and SQL in delivering scalable, user-centric solutions. Passionate towards using AI to solve problems in the real world with continuous learning and innovation.

EDUCATION

Bachelor's degree in Computer Engineering , Marwadi University	Expected 2026
Higher Secondary education , R.A.S.N.S College, Kishunpura	2019 - 2021
Secondary education , Ridhi Sidhi Central School	2019

SKILLS

Technical Skills

MERN Stack, UI/UX, Figma, AI/ML, Python, Java, HTML, CSS, JavaScript, SQL

Professional Skills

Creativity And Innovation , Team Collaboration , Time Management

EXPERIENCE

AI Intern Indian Army (DGTA)	November 2024 - January 2025 <i>New Delhi</i>
--	--

- Contributing to AI-driven projects focused on advanced data analysis and decision-making.
- Leveraging Python and TensorFlow expertise to develop and optimize machine learning models.

Web Development Intern Internpedia	November 2022 - December 2022 <i>Remote</i>
--	--

- Successfully developed eight unique projects using HTML, CSS, and JavaScript.

ACHIEVEMENTS

- Winner, **Half Hackathon [2025]** – Awarded first place for developing a creative solution.
- Finalist, **Cyber-Quest Hackathon [2024]** – Organized by Indian Army & Cyber Peace.

PROJECT

A Book Store Website [Link](#)

- Developed a dynamic e-commerce Book-Store platform using MERN Stack, featuring a responsive interface, integrated book upload functionalities.

Smart Attendance System Using Face Recognition [Link](#)

- Developed an AI-powered Smart Attendance System utilizing computer vision and facial recognition for real-time attendance tracking and automated student monitoring.
